PROPOSAL 2

ORGANISATION OVERVIEW

NAME: CAPE THREADS CO.

BRIEF HISTORY

- Michael's Transport INC was founded in 2025 by a young enthusiastic entrepreneur who observed that many people wanted modern, affordable transport but did not always have access to it locally. The idea started as a small Transport Business trying to generate a new stream of income. As demand grew, the business gained popularity among students and young adults. For its stylish and reasonable prices, Micheal's Transport INC saved enough money in less than a year to open its first fleet of cars in a prominent location. The business quickly gained a reputation for its modern Transport, welcoming drivers, and frequent discounts. By concentrating on customer input and trends, Michael's Transport INC expanded its fleet of transport and number of drivers.
- Currently the company is expanding, with intentions to create a website and establish additional locations going forward.
