

Research and Resources

WE ARE A COMPANY ESTABLISHED BY CAPE THREADS IN 2025

CAPE THREADS co. was founded in 2025 by a young enthusiastic entrepreneur,

who observed that many people wanted modern fashion but did not always have access to it locally.

The idea started as a small online store selling a small selection of T-shirts and sneakers through

social media. As demand grew, the business gained popularity among students and young adults. For its

stylish and reasonable prices, CAPE THREADS co. saved enough money in less than a year to open its

first physical stores in a prominent location. The store quickly gained a reputation for its modern

sneakers, welcoming staff, and frequent discounts. By concentrating on customer inputs and trends, CAPE

THREADS co. expanded its products lineup to feature accessories, and seasonal goods. Currently the

company is expanding, with intentions to establish additional locations going forward.

Mission and Vision

CAPE THREADS co. aims to become a front runner for a fashion/ sneaker brand

known for style, affordability and accessibility with multiple stores and a strong online presence
